

# Frontier Scuba

## Airport transfer instructions

### Manila Airport private transfer

**At the airport** Manila airport can be a little confusing. Here are some simple instructions for finding our driver depending on whether you arrive with a) PAL or B) all other airlines

- a) After collecting your bags exit the terminal. Outside the terminal turn right and walk past the Coffee shop. Just beyond this point are barriers. Our driver will be here and will have a signboard with your name and 'Frontier Scuba'. Identify yourself and the driver will help you with your bags.
- b) Collect your bags and exit the terminal. You must then cross the service road and take the stairs down to the lower service road. At the bottom of the road you will see signs 'ABC', 'DEF' etc. Wait under the sign 'F' for Frontier. On the other side of the lower service road you will see barriers with people waiting for friends. Our drivers will be here opposite 'F' with a sign board with your name and 'Frontier Scuba'. Identify yourself and the driver will help you with your bags

The direct private transfer will take you to a small beach called Laya beach. From here we will have a large outrigger boat take you the one hour to the resort If you can't see the driver please call our head driver on +63 (0) 928 506 7579 or us on 043 287 3077. We can tell you exactly where the driver is waiting.

### Clark Airport

Clark airport is very small. Collect your bags and exit the terminal building. Our driver will be waiting directly in front of the building behind the barriers.
